CHOOSE YOUR LIGHT	21
DESIGN PLANNER	22

Lighting is no longer just a kitchen accessory, it's a necessity. Transform your kitchen designs by incorporating a lighting scheme in the initial designs stages. Just look at how a lighting scheme transforms this kitchen which only has ceiling spot lights.

Before **sensio**® Lighting

After **sensio**® Lighting

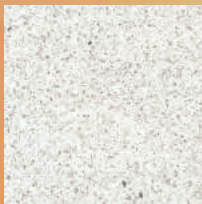

Colour Temperatures

The LED colour that you choose for your kitchen can make a huge impact!

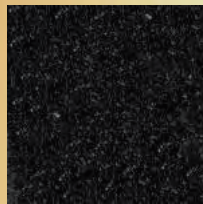

Use this page as a guide to help choose the best LED colour for your kitchen/furniture designs

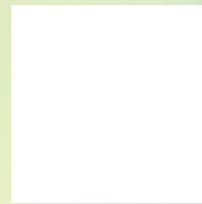

Oak Timbers

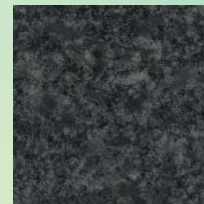

Sandstone

Black Granite

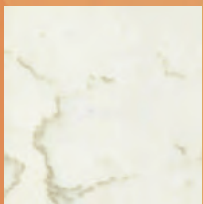

White

Dark Grey

White Granite

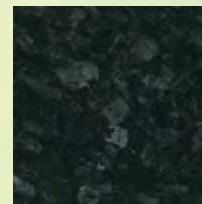

Marble

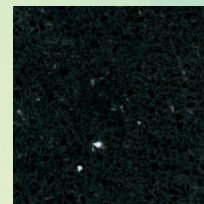

Walnut

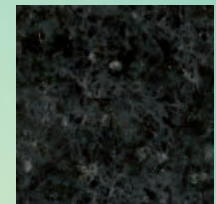

Beige Matt

Gloss Slate

Silver Fleck Granite

Slate

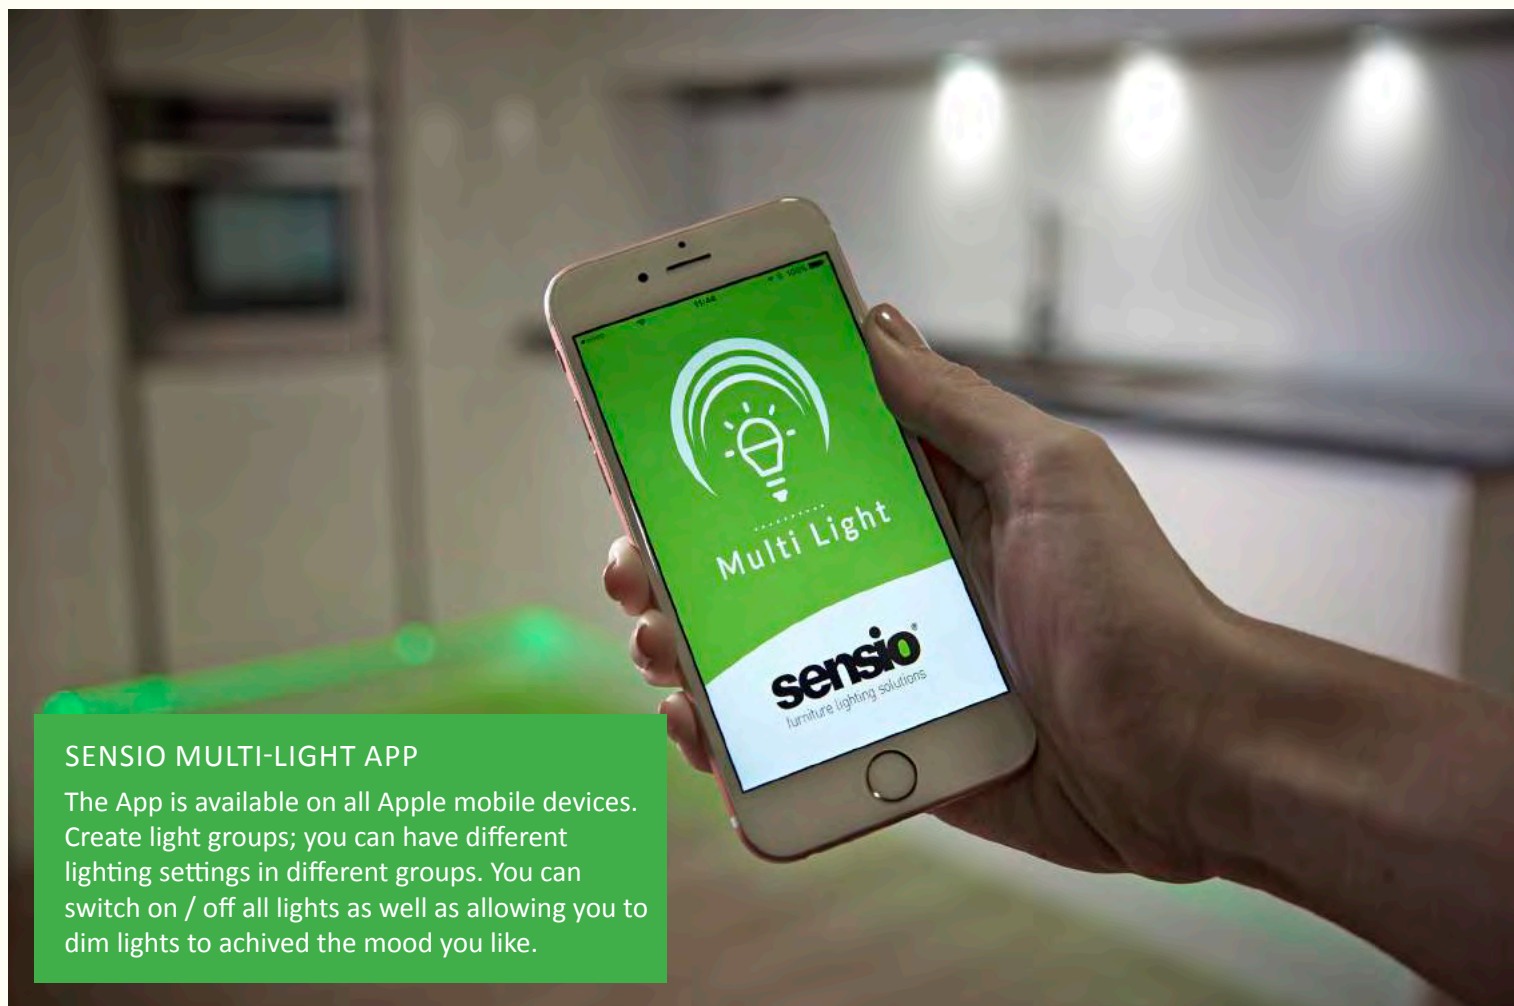

Warm white LED's emit a yellow glow and completely complement a traditional style kitchen featuring wooden work surfaces and muted worktops perfectly

Cool white LED's are more suited to contemporary or modern furniture styles. It gives a more modern effect, bouncing off gloss or contemporary surface to create a stunning effect

SENSIO REMOTE

Remote control to switch on / off all lights as well as allowing you to dim lights to achieve the mood you like. Memory function of the last setting before turned off. Can connect to unlimited zones and works within a 15 meter radius.

SENSIO MULTI-LIGHT APP

The App is available on all Apple mobile devices. Create light groups; you can have different lighting settings in different groups. You can switch on / off all lights as well as allowing you to dim lights to achieved the mood you like.
